From the Evening Post, Nov. 26.

Petersburg, Nov. 9.

HE Court received lately from Berlin, the Ratification of the Treaty of Defensive Alliance concluded between our Empress and the King of Prussia.

Vienna, Nov. 20. Two Days ago the

States of Lower Austria assembled in their Provincial House in this City; whence they waited in a Body upon the Emperor; and having received the Demands of his Majesty, returned to the House, and granted the said Demands. Perquisitions are making here for discovering the Persons who revealed to some Foreign Ministers the Result of the secret Conferences held at this Court.

Portsmouth, Nov. 24. The West India Ships will be very well Mann'd out of these of the Baltic Squadron, (which are now all ordered into Harbour) and for Encouragement of the Sailors that go voluntarily, their Baltic Wages will be paid them.

Francfort, Nov. 27. The French have prepared a Train of Artillery at Metz consisting of 90 Pieces of Cannon of 24 Ponders each, with several Mortars, 24000 Bombs; and the Garrisons of Metz, Sedan, Mezieres, and other Places in those Parts, are said to consist of 30,000 Men.

The following is an Abstract of a Letter from Mr. John Howard, Surgeon and Man-Midwife in the Town of Guilford, to a Relation of his at London.

Guilford, Nov. 27.

THIS Morning I delivered the poor Woman at Goldalmin of the 17th Rabbit, which I believe may be the last. On Sunday I had, in his Coach, Mr. Ahlets, Surgeon to the King's Household; he came by the King's Order, took Part of the 16th Rabbit from her, and carried it to Kensington: He was to have staid till all was over, but being taken ill, he returned the same Night. Lost Thursday I had Mr. St. Andre, his Majesty's Anatomist, by the King's Order, who took Part of one from her, which weighed 22 Ounces: And both were satisfied in the Truth of the wondrous Delivery; as was M. Molineux, Secretary of the Prince, who was also

here. I hear they have made their Report to the King and the Prince.

From the Weekly Journal, Nov. 26.

By our last Letters from the Hague we find, That some of the Provinces are for taking very vigorous Resolutions, towards putting the Republick into a State of Defence, which Resolution 'tis thought may be owing to a Treaty made betwixt the Emperor and a certain Prince, it being apprehended that there may be some private Article in the said Treaty, which may affect the Interest of this State. The Province of Guelderland has been particularly vigorous upon this Occasion, but it is to be feared the other Provinces will be frightened at the great Expence, and perhaps be as slow as they have been upon other Occasions.

From Milan they write, That the Governor is preparing some new Operas and other Diversions for Entertainment of the Chevalier de St. George, who is shortly expected there accompanied by Cardinal Ottoboni.

From the Supplement to the Amsterdam Gazette, Nov. Translation of the TREATY concluded at Vienna, the 6th of August last, betwixt the Emperor of the Romans, and the Empress of Russia.

Wye's Letter verbatim, London, Nov. 27.

Since our last arrived a French and Holland Mail.

The Grand Designs of the Emperor and his new Allies, and the repeated Resolutions of protecting and supporting the Trade of the Ostend Company, notwithstanding of all the Instances and Representations that have been made against it, as being contrary to solemn Treaties; will no doubt induce the Provinces of Holland to give their immediate Consent to the farther Augmentation of their Forces with 10,304 Men. The Petition of the Council of State for the said Augmentation, which was presented the 25th Instant, sets forth among other Things, That it is more and more apparent, that the State must, with the Help of its Friends, secure it self against the vastly extended Designs of Powers who have put all Europe into Motion, under Pretext of precautioning themselves against a Treaty that is merely Defensive, and who, had they nothing worse in View, have at least openly attempted to subvert a Treaty which is the Foundation of the Freedom of this State, and not only in the Beginning of the present Disputes undermind one of the principal Branches of its Commerce, and which is the Basis of its Welfare, and of its Existence; but its Commerce in general, as is but too evident from the Treaties relating to Commerce, which have been concluded since the granting of the known Patent for establishing a Company, and from Obstructions which the trading Subjects of the State meet with from several Quarters. And it is not in the least to be doubted, but the British Parliament (upon whose Deliberations the Eyes of all Europe are fixt, will act with a Vigour and Resolution suitable to the Importancy of the Occasion. Wars grounded upon Necessity for Safety sake, are in the Opinion of the greatest Statesmen necessary.

Admiral Hosier, by Advices just arrived from Jamaica, continues with his Squadron before Porto

Bello. in which Harbour the Galleons still remain.

Letters from Lisbon of the 16th Inst. assure, that the Fleet from Brazil was arrived there; but one of the Men of War which was Convoy, had the Misfortune to be blown up in the Passage by Accident; she had in Silver to the Value of 500,000 l sterl. and her Crew consisted of 600 Men, of which only 7 Persons were saved; and that two Ships of that Squadron were missing.

It appears by the above Accounts, that there was then in the Harbour of Lisbon above 50 English Ships. And from Cadix of the 11th Inst. it appears, there was 24 English Ships in that Harbour.

Yesterday was fix'd up in the Spanish Walk in the Royal Exchange, by the Spanish Consul, That his Catholick Majesty, in Consideration the Plague still rages at Constantinople, and that it has reached the Morea, will not, after the 4th of January next, N. S. admit into his Ports any Ships trading there, except they produce Certificates for their Ships and Merchandise, signed and attested by the said Consul.

Yesterday John Ward of Hackney, Esq; surrendered himself, and was committed to the King's Bench Prison; he offered to give Bail, but it was refused.

Mr. Rogers, a Broker in Exchange Alley, is gone off on account of many notorious Cheats, particularly the selling of Peoples Stocks who were in the Country, by forging Powers, &c. to the Value of 40,000 l. already discovered.

Tis the general Opinion that Colonel Stanhope's Secretary, who arrived Yesterday from Madrid, has brought some extraordinary Dispatches. The stopping of our S. S. Ships in the W. Indies by the Spaniards, we hear is confirmed.

Brigadier-General Grove is gone for Scotland, to take on him the sole Command of the Forces there.

The Parliament is prorogu'd to the 17th of January next, when they are to sit.

Vienna, Nov. 23. The Conferences at Court seem to bespeak a War, and the rather, since 'tis reported the Emperor is resolved to raise 5 new Regiments of Horse, and 6 of Foot.

Hague, Decem. 7. Prince Dolhorucki, the Rus-
ian

son Ambassador, is at last arrived at Stockholm. Cardinal Scotti died lately at Rome.

Cologn, Decem. 3. 'Tis talked that a Congress will be set on foot at Aix la Chapelle, for composing the Differences between the Powers of Europe. However this is much doubted.
